

LUBRICANTS & PENETRANTS

PENETRATING OIL

Part Number	Description	
0190186	A unique combination of ingredients that loosens rusted nuts, bolts, and studs commonly found on mufflers, tailpipe fittings, brake cables, lock mechanisms, pipe couplings and machine parts. Residual oil film lubricates while corrosion inhibitors provide protection against subsequent corrosion. UN-LOX	

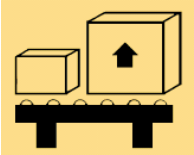

OPEN GEAR & CHAIN LUBE

Part Number	Description	
0190356	A black, viscous lubricant with excellent thixotropic, cohesive and adhesive qualities. Its ability to hold up under water makes it ideally suited for heavy duty outdoor use. Use on cranes, hoists, cables, chains & gears, drag lines, winches, rock crushing machinery, street cleaners and snow removal equipment. SPRAYMATIC	

PENETRATING LUBRICANT WITH TEFLON™

Part Number	Description	
0190156	Lasts longer than conventional lubricants. Withstands severe temperatures from -30°F to over 600°F. Prevents rust, corrosion, water washout, sticking and freezing of rubber to metal. Stays put and withstands extreme pressure. JEL-LUBE	

DRY MOLY LUBE

Part Number	Description	
0190396	Forms a thin, dry, nontransferable black coating. Reduces metal to metal contact on highly machined metal surfaces. Withstands water, oil, alkalis and most acids. Contains approximately 5% Molybdenum disulfide for superior anti-friction and anti-seize properties. Pressure stable from -40°F to 500°F. SURE	

LUBRICANTS & PENETRANTS

NONFLAMMABLE PENETRANT-MOISTURE PROOFER

Part Number	Description	
0190426	Our advanced 4-N-1 aerosol combines the best penetration, lubrication, corrosion inhibition, and moisture-displacing compounds in a nonflammable, nonozone depleting chlorinated solvent base. This advanced formulation is non-conductive for use on equipment while in operation, saving money and improving safety. For use on wet electrical systems, frozen nuts and bolts, mechanical linkages, brakes, squeaking metal parts, stops tools and dies from rusting. DE-MOIST 2000	

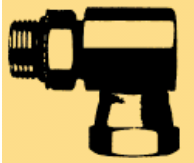

DRY FILM TEFLON-LUBE

Part Number	Description	
0190216	All purpose high temperature dry film lubricant contains PTFE, a nonoily chemically inert lubricant, will not attract dust and dirt. Unaffected by most solvents and chemicals. Use on metal, paper, wood, plastic, glass and rubber, acts as a release agent and helps to prevent dragging, sticking and binding. Heat resistant to 500°F. CHEM-LUBE	

RED GREASE IN A CAN

Part Number	Description	
0190226	This multi-purpose lubricant sprays out of the can as a thin, red penetrating liquid which quickly turns into a thick grease. It withstands temperatures of 500°F, and is water and acid resistant. Includes additives for protection against oxidation and wear. ENDURA	

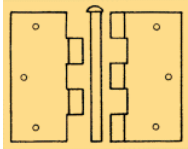

ANTI-SEIZE COMPOUND/RELEASE AGENT

Part Number	Description	
0190886	Protects against corrosive elements, and extreme heat up to 2000°F. Use on boiler pipe, hydraulic fittings, bolts, dies, jibs, nuts, pulleys, propeller shafts and pneumatic hammers. Combines molybdenum disulfide and graphite in a petroleum base to lubricate and seal, resists water wash out. <i>6x1 per case</i> ZICROM	

LUBRICANTS & PENETRANTS

FOOD GRADE SILICONE SPRAY

Part Number	Description	
0190196	Forms a fast drying, water repellent, nonadherent surface coating. Will not discolor or damage fabric, metal, rubber or plastic surfaces. Lubricates, retards corrosion, reduces friction and makes everything slide and glide easier. No greasy or oily film. Can be used as a mold release agent for acrylics. Heat and freeze resistant. SILK-IT	

DRILL AND TAPPING FLUID

Part Number	Description	
0190676	Reduces heat caused by friction, helps prolong tool life. Lubricates tool bits and washes away chips to aid in drilling, reaming, threading and tapping of most metals. Leaves a temporary rust inhibitor on tools and freshly cut metal surfaces. METAL MASTER	

WHITE LITHIUM GREASE

Part Number	Description	
0190476	An exceptional nonstaining lubricant provides superior friction reduction and coating for the prevention of rust and corrosion, PTFE fortified. Will not run, wash off or freeze. PREMIUM WHITE	

BELT DRESSING

Part Number	Description	
0190336	Remains permanently tacky to provide efficient power transfer. Eases strain on bearings, bushings and stops squealing. Will not harden, glaze or crack belt material. Helps prevent deterioration. HOLD	

SOLVENTS, DEGREASERS & STRIPPERS

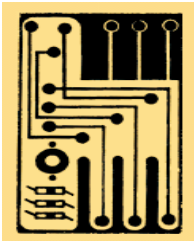

ENGINE DEGREASER-EMULSIFIABLE

Part Number	Description	
0190526	Dissolves heavily embedded grease, oil, dirt and grime. Sprays on then flushes away with water. Safe to use, harmless to metals. USDA authorized. CHEM-GON	

SOLVENT DEGREASER NON-CHLORINATED

Part Number	Description	
0190126	Quick drying, nonconductive degreaser with high power cleaning action. Penetrates through and removes grease, oil, tar, dirt, wax and other industrial soils. Evaporates fast, leaves no residue. Safe to use on most plastics and painted surfaces. ENVIRO-SOLV	

CONTACT & CIRCUIT BOARD CLEANER

Part Number	Description	
0190026	Cleans dirt, grease, oil and moisture from printed circuits, precision instruments, controls, switches, motors and film. Safe on plastics and rubber. Nonconductive for safe cleaning of operating equipment. Dries residue free. Nonflammable, odor free. LEKTRIX 102	

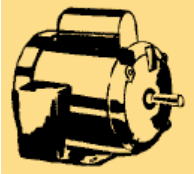

BIODEGRADABLE SOLVENT DEGREASER-NATURAL CITRIC

Part Number	Description	
0190946	Highly concentrated all natural biodegradable solvent. Easily removes grease, oil and grime from metallic and nonmetallic surfaces. Nonconductive to 32,000 volts. CITRI-SOLV	

SOLVENTS, DEGREASERS & STRIPPERS

DIELECTRIC SOLVENT

Part Number	Description	
0190036	Highly concentrated solvent removes dirt, grease, oil and grime from metallic and non metallic surfaces. Ideally suited for use on electric motors. Nonflammable and nonconductive so it will not short motors, generators, other electronic equipment. Nonconducting to 29,000 volts. SAF-T-SOLV	

FAST-ACTING PAINT REMOVER

Part Number	Description	
0190466	Dissolves and removes most paints, decals, varnishes and gasket adhesives. Thickened formula clings to vertical and overhead surfaces to extend contact time. For use on metal and wood surfaces. USDA authorized. JEL-STRIP	

GRAFFITI REMOVER

Part Number	Description	
0190706	A special blend of cleansers and solvents formulated to remove stubborn marks such as spray paints, crayons, marking inks, road tar, stencil inks and other solvent and oil based stains from nonporous surfaces. Safe on Most painted surfaces. VANDALISM REMOVER	

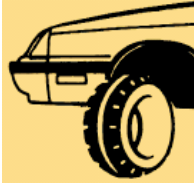

GASKET REMOVER

Part Number	Description	
0190776	Quickly softens and lifts old deposits of gasket compounds, hardened gasket debris and binders so that these soils can be easily scraped or wiped away. Leaves no residue. New gaskets can be applied without preparation. E-Z LIFT	

SOLVENTS, DEGREASERS & STRIPPERS

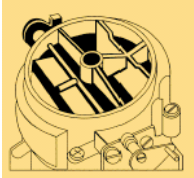

BRAKE CLEANER - ENVIRONMENTALLY SAFE

Part Number	Description	
0190406	Effectively removes asbestos, dust, oil, grease, brake fluid and other soils associated with brake parts. Stops disc brake squeal. Leaves no residue. Low toxicity, no chlorinated solvents, safe on rubber and plastic. Pleasant smell. ENVIRO-BRAKE	

STARTING FLUID

Part Number	Description	
0190686	Quickly starts engines without excessive battery drain. Contains an upper cylinder lubricant to aid in initial start. May be used on any internal combustion engine, diesel, marine, or automotive engines. Noncorrosive. STARTING FLUID	

CARBURETOR & CHOKE CLEANER

Part Number	Description	
0190606	Instantly removes grease, gum, carbon, dirt, varnish and other soils from the moving and sealing surfaces of engine carburetors. Fast drying, leaves no film to cause sticking. Cleans and frees automatic chokes, linkages, manifold heat controls, and PVC valves. Harmless to catalytic converters. KLEENZ	

DE-ICER

Part Number	Description	
0190436	Removes ice, snow and frost from windshields, windows, headlights, and thaws frozen door locks. Will not harm paint, metal, plexiglass or rubber. FROSTY	

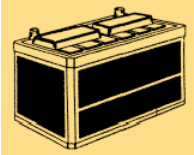

CLEANERS

CARPET CLEANER & STAIN REMOVER

Part Number	Description	
0190086	Safely cleans high traffic areas on carpets. Removes grease, oil, lipstick, crayon, magic marker, blood, rust stains, dust and dirt. Deep penetration action gets out tough spots and stains. Dries quickly. No vacuuming required. REMOVIT	

BATTERY CLEANER

Part Number	Description	
0190316	Penetrates, neutralizes and cleans accumulated dirt and corrosion on batteries, terminals and cables. Formula contains color indicator that appears red in the presence of acid, yellow when neutral. Minimizes battery current leakage and prolongs battery life. SCRUB	

TIRE & VINYL CLEANER & PROTECTOR

Part Number	Description	
0190206	Self cleaning foam cleans and shines all vinyl, rubber and synthetic surfaces. Cures to a glossy protective shine in minutes with no buffing. Repels dirt, salt and grime, protects against discoloration, oxidation, and ozone deterioration. Product works best if original surface is cleaned first. GLISTEN	

FOAMING CITRIC CLEANSER

Part Number	Description	
0190896	Formulated to clean and degrease institutional and industrial equipment. Pleasant deodorizing action utilizes a naturally occurring citrus solvent. Nonflammable, contains no chlorinated solvents, petroleum distillates, hydrocarbons or butylsolvents. 100% biodegradable. Rinse all food surfaces with potable water before reuse. FOAMY CITRIC	

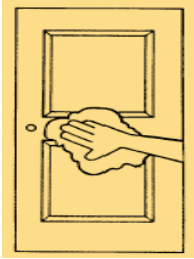

CLEANERS

FOAMING CRT CLEANER

Part Number	Description	
0190176	Makes plastic and glass cleaning easier and faster by leaving a protective coating that repels dirt, dust, finger smudges, scratches, and water spots. Contains no abrasives, silicones or ammonia. Eliminates static. CLEAR VU	

ALL-PURPOSE CLEANER

Part Number	Description	
0190056	Quick action, multi-surface cleaner. Powerful foaming action penetrates and dissolves smudges, film and dirt on any surface not harmed by water alone. Easily wipes clean -no scrubbing or rinsing necessary. USDA authorized. HYDRO-SOLV	

DISINFECTANT CLEANER (FOAMING QUAT-TYPE - EXCID)

Part Number	Description	
0190796	Cleans, disinfects, and deodorizes germ-laden surfaces in one easy operation. For use in washrooms, bathrooms and food preparation areas. Kills staph, salmonella and pseudomonas, kills HIV. Leaves a fresh clean fragrance. EPA listed. EXCID	

STAINLESS STEEL CLEANER & POLISH

Part Number	Description	
0190576	Restores natural brilliance to stainless steel, chrome, silver, brass and other bright metals. Leaves a protective coating which seals and protects the surface from, fingerprints, corrosion, and surface deterioration. Contains no abrasives to mar the appearance of finished stainless steel. USDA authorized. CHEM-SHEEN	

AIR FRESHENERS

AIR FRESHENER DRY SPRAY

Part Number	Scent	Description	
0190096	Baby Fresh	Finely atomized spray formulated to stay airborne, 100% of the fragrance is available instantly to deodorize and freshen every cubic inch in the room. The dry spray allows for deodorizing of carpeting, upholstery, and draperies without wetting or staining.	
0190166	Citrus Fresh		
0190106	Fresh & New		

ODOR NEUTRALIZERS FOR METERED UNITS

Part Number	Scent	Description	
0190116	Bayberry	Unpleasant odors are hunted down and chemically destroyed. Millions of tiny aerosol particles are suspended with each metered spray. One unit is recommended per 6,000 cubic feet of space. Use with metered dispensing unit: 8150997	
0190736	Spring Rain		
0190726	Aut. Heather		
0190546	KleenBreeze		
0190556	Vanilla Plus		

FURNITURE POLISH

Part Number	Description	
0190066	The ideal polish & cleaner for use on formica, metal, plastic and vinyl furniture. Also protects and polishes ceramic, enameled porcelain and wood surfaces. Polished surfaces resist finger smudges. HI-SHEEN	

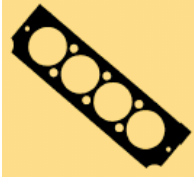

GLASS & HARD SURFACE CLEANER

Part Number	Description	
0190046	Foaming formulation clings to vertical surfaces. Penetrates and dissolves grease, oil, dirt, and deposits. Does not streak or run. Cleans windows, mirrors, windshields, and other smooth porous surfaces such as chrome, stainless steel, ceramic tile, vinyl etc. NSFC authorized. NO-STREAK	

SPECIALTY

SPRAY TRIM ADHESIVE

Part Number	Description	
0190286	A strong, clear drying adhesive for general purpose bonding of materials. A single coat to one surface gives temporary bond. A single coat to both surfaces gives permanent bond. Remains waterproof and flexible. Bonds Urethane foam, foam rubber, leather, paper, cardboard, cloth, mylar, foil acetate sheets, glass and certain plastics. PERMA-STICK	

PEELABLE PROTECTIVE COATING

Part Number	Description	
0190326	Excellent all-weather protection for any surface. A durable, vinyl coating that protects metals and other surfaces against corrosion, rust, acids, dust, moisture, and salt spray. Remains flexible at low temperatures. VOLTON	

CEILING TILE RESTORER

Part Number	Color	Description	
0210312	White	Restores dirty, water stained or smoke discolored tiles to like new condition. Requires no surface preparation. Dries quickly with no objectionable odor. Vertical valve dispenses product readily and effortlessly with an up-right spray. CEILING TILE	
0210313	Off-White		

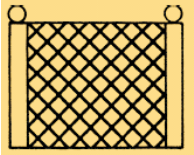

RTV GASKET MAKER

Part Number	Color	Description	
0190876	Blue	Made of 100% silicone in a pressurized can that's easy to use and empties completely. No cartridge guns or messy squeeze tubes. Replaces a wide range of cork, paper, asbestos, felt and metal gaskets. Low volatility, oxygen sensor safe. One 8 oz. Can provides 54 feet of even, consistent bead. 6x1 per case.	
0190866	Red		
0190856	Black		
0190916	Clear		
0190906	White		

SPECIALTY

GALVANIZING SPRAY

Part Number	Description	
0190766	Forms a chemical bond when applied to bare metal, which will protect and preserve for years. Dries in a matter of minutes. Use to protect steel and iron from corrosion. Can be painted over if desired. Made with 96% pure zinc, giving a final finish equal to hot dip galvanize processes. METALIZE	

HIGH SOLID MRO PAINTS

Part Number	Color	Description	
0210400	Gloss White	A superior, lead-free industrial coating formulated for tough applications. Protects against rust, weather, oil, gasoline and most corrosive chemicals. Resists abrasion and heat and withstands high humidity. Excellent for most types of wood and metals.	
0210411	Flat Black		
0210505	Red Primer		
0210410	Gloss Black		
0210506	Gloss Safety Yellow		
0210420	Light Machinery Gray		
0210503	Light Gray Primer		
0210507	Gloss Safety Blue		

WASP & HORNET KILLER

Part Number	Description	
0190506	This special formulation is designed to drop wasps, yellow jackets and hornets instantly. When the wasps return to the nest, the product continues to kill with residual action. Special nozzle concentrates a jet spray that can be directed to insect nest areas up to 20 feet above Ground. Dielectric breakdown voltage of 47,300 volts. EPA registered. Case lots only WASP & HORNET KILLER III	

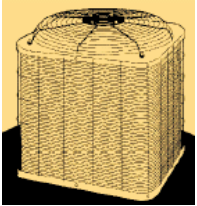

CRAWLING INSECT KILLER

Part Number	Description	
0190376	Concentrated, premium insecticide spray that is highly effective against flying and crawling insects. Especially effective against cockroaches, ants, waterbugs, silverfish, earwigs and spiders. USDA authorized, EPA registered. Case lots only CRAWLING INSECT KILLER II	

SPECIALTY

FOAMING NON-ACID COIL CLEANER

Part Number	Description	
0190446	No rinse coil cleaner cleans and deodorizes, eliminates the need for high pressure sprayers or bulky tank sprayers. Dirt and lint wash away with coil condensate. Sprays right side up or upside down. COIL-KLEEN	

UNDERCOAT

Part Number	Description	
0190926	Premium Rubberized Undercoating is a corrosion inhibiting formula that seals out moisture, deadens sound, prevents rust and will not peel off. Applications include gutter sealer, concrete, tree wound sealer, asphalt crack filler and more. RUBBERIZE	

PREMOISTENED GRAFFITI & OVERSPRAY TOWELS

Part Number	Description	
8320477	The latest, most convenient innovation in combating graffiti. Powerful cleaning formula removes tough graffiti. Nontoxic, nonflammable, nonhazardous and biodegradable formula. Abrasive but nonscratching towels aid in cleaning. WIPE-OUT	

INVERTED TIP LINE MARKING PAINT

Part Number	Color	Description	
0210600	Traffic Yellow	Quality formulation combines the environmental advantage of being water based but not water soluble so our high pigment solids will not wash away. Easy to apply, long lasting marker spray paint that contains no CFC's, methylene chloride, and less VOC solvents. Vivid colors are ideal for any surface that requires traffic control markings, from concrete or blacktop to gravel or dirt.	
0210601	Traffic White		
8150201	Striping Machine		

STEAM & PRESSURE WASHER CLEANERS

PRESSURE WASHER CONCENTRATE

Part Number	Description
814055	<p>A heavy duty product with a unique blend of wetting and emulsifying agents that provide superior ability to penetrate the toughest soils. Soils are held in suspension to prevent deposition. Rinsing is complete, leaving a surface that is free from residue. USDA A-4. Dilute with 20 to 50 parts water. Packaging: 55GL, 30GL, 5GL</p> <p>IMPACT</p>

HEAVY DUTY STEAM CLEANER

Part Number	Description
814032	<p>A caustic heavy duty solution designed for maximum emulsification of heavy grease, oil and old paint accumulations. The impact of high pressure and heat together with the chemical power of this highly concentrated cleaning liquid make even the most stubborn steam cleaning operations easier and faster. Not recommended for use on aluminum, galvanized or other reactive metals. USDA A-4, A-8. For steam cleaners that premix before going to coils, dilute with 20 parts water. For direct feed cleaners, dilute with 80 parts water. Packaging: 55GL, 30GL, 5GL</p> <p>TERGE OFF 32</p>

NON-CAUSTIC STEAM CLEANER

Part Number	Description
814031	<p>A concentrated liquid steam cleaner that is noncorrosive, nonfuming and safe for food processing areas. It was designed for indoor or outdoor use to remove grease, oil, grime, soil, dirt and sludge from steel, aluminum and painted surfaces. USDA A-1. For steam cleaners that premix before going to coils, dilute with 20 parts water. For direct feed cleaners, dilute with 80 parts water. Packaging: 55GL, 30GL, 5GL</p> <p>TERGE OFF 31</p>

WATER SOLUABLE DEGREASERS

NON-BUTYL CLEANER DEGREASER

Part Number	Description
814031	Contains no butyl or other toxic solvents. ZORB-ALL cleans by spontaneous emulsion and prevents re-deposition of oily soils cleaning. Formulated to remove, emulsify and deodorize fats and greasy soil from all types of surfaces. USDA . Packaging: 55GL, 30GL, 5GL, 4X1GL,12X1QT ZORB-ALL

HEAVY DUTY SOLVENT BASED CLEANER

Part Number	Description
814084	Concentrated high pH butyl cleaner for cleaning and degreasing. Use where extra high solvent action is required. For effective removal of grease, oils, fats, carbon, wax, tar and other stubborn soils. Safety and convenience are assured with this nonflammable, biodegradable, nonfuming, water-based solvent. USDA A-1. Dilutes up to 40 to 1 with water. Packaging: 55GL, 30GL, 5GL, 12x1QT ALL IN ONE

MULTI-PURPOSE SOLVENT BASED DETERGENT

Part Number	Description
814023	Penetrates and breaks the "soil bond" between the last layer of soil and the surface-which acts as a barrier to most effective cleaning or degreasing operations. Safe-o-lene is a noncombustible, non-flammable, water-soluble solvent rust inhibited. Packaging: 55GL, 30GL, 15GL, 5GL SAF-O-LENE

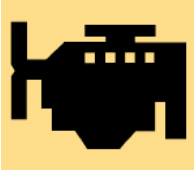

SAFETY SOLVENTS & DEGREASERS

NATURAL INDUSTRIAL CITRUS SOLVENT

Part Number	Description	
817088	Highly concentrated, all natural, organic biodegradable solvent/emulsifier blend that has multiple applications. Use for cleaning and degreasing machinery, engines and concrete floors without the use of ozone depleting or chlorinated solvents. Offers the power of the toughest solvent cleaners without putting your personnel at risk. Dilute 1 to 4 oz. per gallon of water depending on the amount of soil. Packaging: 55GL, 30GL, 5GL, 12x1PT CITRI-SOLV	

COLD SOLVENT DEGREASER

Part Number	Description	
814010	A powerful blend of high-flash solvents that quickly penetrates, dissolves and removes grease, oil and wax-like soils without harm to the surface being cleaned. Does not contain carbon tetrachloride. Noncorrosive, nonconductive solvent that makes grease and oil soluble in water. Removes thick, heavily embedded grease, oil and grime from automotive engines, fuselages, fifth wheels, machinery and heavily accumulated grease from floors. USDA K-1. VOC compliant. Packaging: 55GL, 30GL, 5GL CHEM-GON	

CIRCULATING PARTS SOLVENT

Part Number	Description	
814078	Designed for use in re-circulating parts washers, air bubble agitators and soak tank units. Safe on aluminum, brass, copper, iron, stainless steel and other metals. Quick penetrating action removes grease, oil, sludge and grime from parts. Easy on pump gaskets. Designed to be long lasting, slow evaporating and re-energizing by dropping soil and sludge to the bottom of tank. Packaging: 55GL, 30GL, 5GL SOIL-GO	

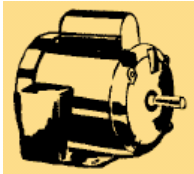

NON-CHLORINATED PARTS SOLVENT

Part Number	Description	
814092 8150730	Contains a scientific blend of low volatile, high-flash and natural organic solvents. SOILEX is designed for use in re-circulating parts washers, air bubble agitators and soak tank units. It is environmentally safe, no CFCs and low VOCs improving air quality in the work area. SOILEX can be disposed of with waste oil in accordance with federal, state and local regulations. Packaging: 55GL, 30GL, 5GL CIRCULATING PARTS TANK PART II 8150730 SOILEX 814092	

SAFETY SOLVENTS & DEGREASERS

NON-CHLORINATED SAFETY SOLVENT

Part Number	Description	
814091	<p>A blend of organic solvents designed to replace CFC's and HCFC's in heavy duty cleaning of grease, oil, tar and wax. Works quickly and efficiently, blown dry with air or wiped dry it leaves no residue. Non-corrosive and possesses a very high dielectric constant for electronic cleaning applications. Water rinseable and completely biodegradable. Packaging: 55GL, 30GL, 15GL, 5GL, 4X1GL</p> <p>ENVIROTHANE</p>	

CLEANERS & DEGREASERS

NEUTRAL pH CONCENTRATED CITRUS CLEANER

Part Number	Description
814022	Contains no bio-stimulating phosphates, a prime source of pollution. A high-foaming neutral pH cleaner that contains a powerful natural citrus solvent to degrease and deodorize all washable surfaces. USDA A-1. up to 20 to 1 with water. Packaging: 55GL, 30GL, 5GL ZERO-PHOS

MULTI-PURPOSE CLEANER DEGREASER

Part Number	Description
814014	Concentrated synthetic detergent containing a wide range of chemicals for maximum efficiency in attacking all types of dirt and grime. In addition to use on floors, this detergent is also useful in cleaning walls, counters, woodwork, blinds, porcelain, or any painted or commercially enameled wood or metal surface without harm to hands. USDA A-1. Dilute at least 10 to 1 with water. Packaging: 55GL, 30GL, 5GL, 4x1GL, 12 QT HYDRO-SOLV

ALUMINUM CLEANER & RENOVATOR

Part Number	Description
814003	Super fast-acting, non-streaking liquid concentrate used to clean and restore unpainted aluminum and stainless steel surfaces where their luster has been lost due to buildup of road films and oxide films. Economical, dilutes with 20 to 100 parts water. Packaging: 55GL, 30GL, 15GL SUPER ANTHORIUM

STAINLESS STEEL CLEANER & DESCALER

Part Number	Description
814097	A new metal brightener designed to remove heavy oxidation, corrosion and most films from stainless steel and aluminum equipment. It will not damage paint, lettering or decals when used as directed. It can be diluted from 1 part to 40 parts water, depending on condition of surface and air temperature. Warmer temperatures permit a higher dilution rate. Packaging: 55GL, 30GL, 15GL, 5GL TARTEEN

SOLVENT DEGREASER

Part Number	Description
814012	A special blend of high-flash solvents that quickly penetrates, dissolves and removes grease, oil and wax-like soils without harm to the surface being cleaned. Dries at a controlled rate that will not cause condensation, yet leaves the surface film-free, non-conductive and safe for use. Contains no carbon tetrachloride. Packaging: 55GL, 30GL, 15 GL, 5GL ELECTRATHANE

CLEANERS & DEGREASERS

NON-CHLORINATED BRAKE PARTS CLEANER

Part Number	Description	
814093	A biodegradable brake cleaning solvent that contains no CFCs or HCFCs. User friendly pleasant fragrance. Removes grease, oil, brake fluid, asbestos, dust and dirt from brake parts, plates, springs, shoes and pads. Packaging: 55GL, 30GL, 5GL, 4X1GL ENVIRO-BRAKE	

NON-CHLORINATED CARBURETOR CLEANER

Part Number	Description	
814048	A blend of organic solvents designed to replace chlorofluorocarbons (CFC's) and Hydro chlorofluorocarbons (HCFC's) for softening and removing carbon, paints, engine varnish, oil, grease, sticky gums, and other soils found on engine parts and marine and automotive components. Non-corrosive and possesses a very high dielectric constant for electronic cleaning applications. Water rinseable and completely biodegradable. Packaging: 55GL, 30GL, 15GL, 5GL KLEENZ	

WINDSHIELD WASHER SOLVENT

Part Number	Description	
817004	Windshield washer solvent concentrate is formulated to operate in subfreezing temperatures. Designed to be diluted with water for greater economy year round. VOC compliant. Packaging: 55GL, 30GL, 5GL, 4x1GL FROSTY	

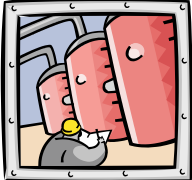

DEISEL FUEL CONDITIONER

Part Number	Description	
813004	A concentrated treatment which includes excellent flow and cetane improvers. The flow improver modifies the fuel's wax crystals so that low temperature flow and filter plugging problems are prevented. An antioxidant improves the stability and quality of the fuel during storage. Gum dispersant keeps injectors and internal parts clean. Moisture displacing corrosion inhibitors are used to protect from rust and corrosion. For problem engines add 1 pint to each 20 gallons of diesel fuel. For bulk storage tanks add 1 gallon per 1000 gallons of diesel fuel. Packaging: 55GL, 30GL, 5GL, 4x1GL POW'R-TEEN	

CLEANERS & DEGREASERS

DESCALER

Part Number	Description	
818027	Fast-acting boiler and cooling tower descaler. Removes energy-robbing deposits and restores units to maximum operating efficiency. Dissolves rust and scale quickly, minimizing downtime, eliminating time-consuming scraping. Corrosion inhibited. Packaging: 55GL, 30GL, 5GL, 4X1GL CHEM SCALE	

CONCRETE REMOVER & DESCALER - CONCENTRATED

Part Number	Description	
814039	Used by construction companies, concrete plants, masonry contractors and ceramic tile contractors. Removes heavy mortar incrustations from cement trucks, cement mixers, wheelbarrows, metal equipment, shovels, brick, transit forms, etc. Twice as effective as most muriatic acid cleaners. Removes deposits fast. Special inhibitors reduce attack on bare steel. Safe on most painted surfaces. Removes corrosion. Economical...can be diluted with up to 10 parts water. Packaging: 55GL, 30GL, 15GL CHEM-CRETE	

CONCRETE REMOVER & DESCALER

Part Number	Description	
814025	A ready -to-use descaler which replaces muriatic acid. It is formulated with special soil penetrants and wetting agents that help break up and dissolve lime deposits, scale, rust, algae, stains, mineral sediments, and removes mortar, concrete and plaster without harm to most metals, paints or finishes. Recommended for use in: Industry: Descaling steam cleaners, metal cleaning. Utility Co's: Descaling water and gas meters,pumps. Concrete Plants: Removes cement from mixers & ready-mix trucks. Construction: Removes mortar & plaster from window & door frames. Shopping Malls: Decorative fountains, stains from concrete, terrazzo. Food Service: Coffee urns, ice-making machines. Building Maintenance: Ceramic tile, toilet bowls, encrusted glass. Packaging: 55GL, 30GL, 15GL CHEM-CRETE II	

DESCALER FOR FOOD PLANTS

Part Number	Description	
814007	A fast-wetting acid cleaner in a dustless powder form. It is recommended for removal of rust, protein scale and hard-water scale for operations requiring safe and non-toxic acid operations. DRY ACID is a safe replacement for hydrochloric and phosphoric acids. It is safe on stainless steel, steel, iron, copper, brass and tin. DRY ACID is effectively inhibited to prevent corrosive attack of equipment and galvanized surfaces. Packaging: 400LB, 125LB, 50LB DRY ACID	

CLEANERS & DEGREASERS

CHANDELIER CLEANER

Part Number	Description	
8170953	Cleans and brightens all chandeliers without spotting or streaking. Completely safe on finest crystal and all metal surfaces. Quick and easy to use even on large and hard to reach fixtures. Packaging: 55GL, 30GL, 15GL, 5GL FIVE DIAMONDS	

GRANULAR ALL-PURPOSE CLEANER

Part Number	Description	
814001	A granulated product designed for cleaning concrete driveways, garages or any surface where grease has accumulated. It is manufactured from the highest grade raw materials obtainable, and designed to give the most efficient results possible. Penetrates and emulsifies grease on all surfaces. It is free rinsing, and will leave no residue. May also be used as a steam-cleaning compound. Packaging: 325lb, 125lb, 50lb ANTHOR G	

ULTRA HEAVY DUTY CLEANER

Part Number	Description	
814088	Highly concentrated for use in removal of severely encrusted soils. Instantly dissolves and emulsifies fats, waxes, grease and grime most ordinary cleaners cannot remove. Excellent for use on hard metal surfaces and porous surfaces such as concrete and brick. Packaging: 55GL, 30GL OXENE	

BLANKET & ROLLER WASH

Part Number	Description	
814037	Ready to use. Safe, low toxicity. Contains no chlorinated hydrocarbon solvents. Non-corrosive. Safe on aluminum, brass, copper, iron, stainless and other metals. Low evaporation. Pleasant odor. Packaging: 55GL, 30GL, 15GL, 5GL SAF-T-PET-O	

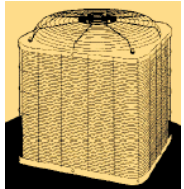

CLEANERS & DEGREASERS

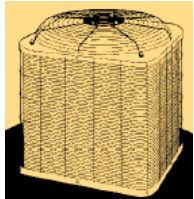

GLASS CLEANER CONCENTRATE

Part Number	Description	
817010	Glass cleaner that leaves a bright, clean surface without any unwanted streaks. An effective hard surface cleaner and brightener safe on ceramic, brass, chrome, stainless, porcelain, Lexan, acrylic, marble, enamel, vinyl surfaces. USDA C-1. Packaging: 55GL, 30GL, 5GL, 4x1GL, 12QT NO-STREAK	

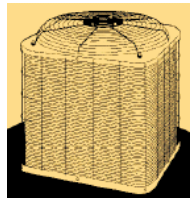

AIR CONDITIONER COIL CLEANER - NON-ACID

Part Number	Description	
832021	A blend of high performance alkaline detergents, bonders and penetrants designed for heavy duty degreasing, cleaning and brightening of condenser and evaporator coils, fins, and other equipment surfaces. Self rinsing with sufficient condensate. Packaging: 55GL, 30GL, 5GL, 4X1GL COIL KLEEN	

AIR CONDITIONER COIL & FILTER CLEANER

Part Number	Description	
817058	A blend of corrosion-inhibited acids, synthetic detergents, and super wetting agents. Made especially for exterior cleaning of air conditioning, refrigeration and air handling systems of all types and sizes. Removes corrosion, dirt, greasy soil, dust, lint and atmospheric deposits. Cleans, brightens and renovates coils, filters, fins, condensers, electronic precipitators, fan blades. Improves heat transfer efficiency and reduces energy consumption. Will not attack plastic, rubber, paint, tile floors, asphalt roofing, carpeting. Non-flammable. Packaging: 55GL, 30GL, 15GL, 5GL, 4X1GL FREEZE	

SOLID AIR CONDITIONER TREATMENT

Part Number	Description	
816018	S•A•C•T consists of a special formulation of chemicals in a controlled-dispersal tablet form. As the tablet dissolves, it prevents the accumulation of rust, corrosion, sludge, airborne dust, and slime in condensation pans and drains. One treatment will prevent condensate drain stoppage and reduce odors from the pan for up to a month. Easy to use, store, and handle. Regular use prevents overflow damage and unnecessary maintenance repairs. Biodegradable and non-flammable. Packaging: 24x1 SACTS	

CLEANERS & DEGREASERS

CHLORINATED MACHINE WARE WASHING COMPOUND

Part Number	Description	
817087	A light yellow, alkaline, chlorinated liquid machine ware washing compound. Provides soil-free pipelines, sparkling glasses, and stain-free ware in water of up to 15 grain hardness when used at normal concentrations. Packaging: 55GL, 30GL, 15GL, 5GL SIP	

OVEN CLEANER

Part Number	Description	
814028	A special formulation of biodegradable detergents and penetrants designed to remove food fats, grease and carbon deposits from ovens, ranges, deep fat fryers, filter hoods, and all other kitchen working surfaces. It is used where food is cooked or processed in restaurants, hospital and school kitchens, meat and poultry processing plants, and canneries. Safe for use in food preparation and processing plants and contains corrosion inhibitors that reduce the risk of corrosion in areas where water is used on unpainted metals. Non-flammable so it is not necessary to cool down ovens or ranges before cleaning. Safe to use near open flames. Packaging: 55GL, 30GL, 15GL, 5GL, 4X1GL STRIPIT	

TAR & ASPHALT REMOVER

Part Number	Description	
814024	Removes crude oil sludge from storage tanks, fuel oil trucks and related equipment. Will dissolve most latex-base residues from tank cars hauling liquid latex. Can be used to clean gluing and packaging machinery. Excellent for cleaning engines and small parts. It contains special rust inhibitors to protect parts and equipment from excessive corrosion. It is designed for quick and easy removal of tar, asphalt, road oil, grease and grime from all types of road equipment, vehicles, storage tanks and machinery. Packaging: 55GL, 30GL, 15GL, 5GL TAR SOLV	

ASPHALT RELEASE COMPOUND

Part Number	Description	
817080	Prevents asphalt buildup in truck beds and other paving equipment. A safe, water soluble, non-polluting, non combustible, anti-stick formula developed to replace the use of solvents, oils and diesel fuel. Non combustible. High lubricity. Non polluting -contains no petroleum distillates or chlorinated materials. 100% Biodegradable. Packaging: 55GL, 30GL, 15GL, 5GL NO STICK II	

TRUCK & CAR WASH PRODUCTS

TRAILER & TRUCK WASH

Part Number	Description
814021	A highly concentrated, heavy-duty liquid cleaner for washing trucks, buses, tankers and other transportation equipment. It is designed to be safe for use on all surfaces common to those vehicles, such as exposed aluminum, lexan, plexiglass, and enameled or lacquered surfaces. Packaging: 55GL, 30GL, 15GL, 5GL TRUCK FOAM

LIQUID CAR WASH WITH PROTECTIVE WAX

Part Number	Description
817005	A liquid car wash detergent that deposit's a protective wax coating to transportation vehicles exterior coatings. While cleaning the surface road soil and dirt, this product leaves a protective coating that inhibits future cleaning problems. If a vehicle is washed regularly every few weeks with WASH 'N SHINE, the wax will build up to the thickness of a paste wax. Packaging: 55GL, 30GL, 15GL, 5GL WASH-N-SHINE

CONCENTRATED LIQUID CAR WASH

Part Number	Description
8140193	A concentrate of foaming synthetic detergents compounded especially for washing automobiles, buses, trucks, airplanes and other high-gloss surfaces. Contains special surfactants that will drain dry without streaking. Removes dirt, greasy soil and road films, but will not remove protective waxes or polishes. Packaging: 55GL, 30GL, 15GL, 5GL AUTO FOAM

FLOOR MAINTENANCE PRODUCTS

METALLIC INTERLOCK FLOOR FINISH

Part Number	Description
832002	An industrial/institutional grade, high-speed, buffable floor finish that produces a durable, high gloss, wet look finish. Formulated especially for heavily-trafficked floors where its superior resistance to black heel marking and scuffing results in far greater durability than you would get from ordinary waxes or finishes. Packaging: 55GL,30GL, 5GL, 4x1GL YEAR ROUND

CONCRETE AND TERRAZZO SEALER

Part Number	Description
817023	A water based acrylic floor sealer allows the sealing of concrete and terrazzo floors quickly and easily. No odor or fumes when applying. Provides a stain resistant, slip resistant, and scuff-resistant coating specially formulated for use on new or worn Terrazzo, as well as stone or masonry floors. Packaging: 55GL, 30GL, 5GL, 4X1GL POLY CRYL

FLOOR FINISH RESTORER

Part Number	Description
817070	A mop on or spray buff concentrated floor finish restorer. Renews the floor finish surface while repairing scratches and marks. Extends the time between stripping cycles and leaves a film that can be burnished to a "wet-look" shine. Dilute from 2 to 16 fl oz per gallon of water depending on floor condition. Packaging: 55GL, 30GL, 5GL, 4X1GL CHEM-BUFF

FLOOR STRIPPER/CLEANER WITH AMMONIA

Part Number	Description
832003	Heavy duty concentrated, ammoniated wax stripper formulated to thoroughly remove acrylic finishes, waxes and detergent-resistant floor systems. Easily penetrates multiple layers of floor finish holding them in a low-foam suspension for easy wet-vac removal. PICK-UP is free rinsing leaving no film to discolor floors. Dilute with 10 parts water. Packaging: 55GL, 30GL, 5GL, 4X1GL PICK-UP

FLOOR MAINTENANCE PRODUCTS

NON-AMMONIATED FLOOR & BASEBOARD STRIPPER

Part Number	Description
832014	Highly concentrated, powerful amine-based formula converts waxes and acrylic finishes into easily removed emulsions. Removes tough finish buildups generated by high speed burnishing and constant spray buffing. Unique jelled formula allows product to adhere to baseboards for easy removal of wax and finish build-up. For normal build-ups, dilute with 10 parts water. Packaging: 55GL, 30GL, 5GL, 4x1GL STRIP-EZ

SELF POLISHING FLOOR FINISH

Part Number	Description
817014	Nylar is resistant to scuff, black heel marks and dirt pick-up. It dries to a crystal hard finish - yet it's slip resistant. Long lasting. Suitable for all surfaces - vinyl, rubber, linoleum, asphalt, vinyl asbestos, wood, terrazzo and cement. Will not dull or wash off when cleaned with soap or detergents. Readily strippable with Chem-Power PICK-UP. Packaging: 55GL, 30GL, 15GL, 5GL NYLAR

OIL-BASED DUST CONTROL

Part Number	Description
817074	Controls dust on unsealed concrete or wood floors in industrial plants, factories, storage facilities, warehouses, garages, saw mills, readi-mix plants and body shops. Dust and dirt cling to floor reducing contamination by airborne dust particles. Works as dust mop treatment. Packaging: 55GL, 30GL, 5GL, 4X1GL DUSTEEN

DUST CONTROL

Part Number	Description
816022	Effectively controls dust on unsealed concrete, vinyl asbestos and linoleum floors, terrazzo, troweled concrete, or wood floors. Reduces dust and dirt and helps control contamination by airborne dust particles. Dust clings to surfaces for more effective cleaning. No oily residue reduces slip hazards. Does not contain silicone. Packaging: 55GL, 30GL, 15GL, 5GL, 4X1GL DUST MAGNET

CARPET MAINTENANCE PRODUCTS

SPOT REMOVER & TRAFFIC LANE PRE-SPRAY

Part Number	Description
832015	A fast-drying solvent for removing difficult stains like oil, grease, and heavy accumulations in high-traffic areas. Makes extraction process easier and more efficient. Packaging: 55GL, 30GL, 5GL, 4X1GL, 12QT REMOVIT

CARPET EXTRACTION & BONNET CLEANER

Part Number	Description
837004	A highly concentrated blend of solvents and low-foam cleaning agents designed to remove the toughest soil from all types of carpets and upholstery. Contains optical brighteners and odor counteractants. Packaging: 55GL, 30GL, 5GL, 4X1GL FIBRE-KLEEN

CARPET EXTRACTION CLEANER

Part Number	Description
837024	Highly concentrated for economic use. Safe to use on all types of carpets and upholstery. Low foam for ease of use. Removes toughest soils. Packaging: 55GL, 30GL, 15GL, 5GL X-TRAXALL

WOOL SAFE CARPET EXTRACTION

Part Number	Description
837025	Highly concentrated for economic use. Safe to use on all types of carpets and upholstery. Safe on imported wool. Low foam for ease of use. Removes toughest soils. Neutral pH. Packaging: 55GL, 30GL, 15GL, 5GL, 4X1GL FIBER-SAFE

DRY FOAM CARPET SHAMPOO

Part Number	Description
837001	A powerful, concentrated, liquid carpet shampoo that cleans, deodorizes, brightens and prevents build-up of static electricity in carpets. LUSTRE-FOAM's formulation of wetting, cleaning and foaming agents produces a stable cleaning foam which will not soak into the carpet or rug that is being cleaned, and can be readily vacuumed. Contains residual soil-retarding agents that help prevent rapid resoiling of carpet after shampooing. Contains special optical brighteners to help restore original luster. Packaging: 55GL, 30GL, 15GL, 5GL, 4X1GL LUSTRE FOAM

CARPET MAINTENANCE PRODUCTS

BONNET CLEANER

Part Number	Description
837006	The ideal blend of concentrated solvents and fast drying low sudsing cleaning agents for bonnet cleaning of all carpet types. Allows the fast removal of surface soils in high-traffic areas with the benefit of being super-fast drying. Carpets can accept foot traffic almost immediately after cleaning. Dilute 6 to 8 oz per each gallon of water. Packaging: 55GL, 30GL, 5GL, 4X1GL QUIK-KLEEN

BIOLOGICAL SPOT REMOVER AND ODOR DIGESTER

Part Number	Description
817072	Dissolves food-based spots caused by soda pop, chocolate and all other food based stains. Eliminates malodors caused by pets, body fluids, blood, vomit, dampness and organic matter. Nonstaining on carpets and upholstery. Dilute 1 to 1 with water. Packaging: 55GL, 30GL, 5GL, 4x1GL, 12QT DEVOUR

SUPER CONCENTRATED DEFOAMER

Part Number	Description
817067	A fast-acting liquid defoamer that eliminates foaming caused by residues left in carpets. Quickly knocks down foam in recovery tanks. Add to the pick up tank at the rate of 2oz per gallon. Packaging: 55GL,30GL, 5GL, 4X1GL KNOCK-DOWN

ODOR CONTROL PRODUCTS

HEAVY DUTY LIQUID DEODORANT

Part Number	Description
838011	Effectively halts all odors. Excellent for removing smoke odors, odors from dumpsters and waste containers, stale beer and vomit odors. Dilute 1 to 2 oz per gallon of water. Packaging: 55GL, 30GL, 5GL, 4X1GL, 12QT DAWN TO DUSK

ODOR COUNTERACTANT

Part Number	Description
838012	A highly concentrated water-soluble odor counteractant, not a mask or cover-up. Eliminates odors associated with mustiness, fire/smoke, soiled linens, vomit, urine and many others by turning the treated surface into a continuously vaporizing wick. Surfactants enhance cleaning while the odor counteractants neutralize malodor molecules leaving a pleasant grapefruit scent. Dilute 1 to 2 oz per gallon of water. Packaging: 55GL, 30GL, 5GL, 4X1GL, 12QT SAFARI

AIR FRESHENER BEADS

Part Number	Scent	Description
832007	Fresh 'n Clean	Air flow bags control odors in air circulating systems, garbage areas, vacuum cleaners, cars, trucks, buses and pet areas. Very effective against smoke odor. Safe and easy to handle. Used bags can be thrown in plastic recycle bin as everything in the package is environmentally friendly. Packaging: 1 bucket of 24 AIR-FLO BEADS SCENTS
832077	Vanilla	
832078	Potpourri	
832079	Orchard Spice	
832080	Sea Breeze	

WATER-SOLUBLE DEODORANT

Part Number	Description
817062	Concentrated odor suppressor and deodorizer. Formulated to mask objectionable malodors in industrial, institutional, sewage treatment plants and other areas where malodors occur. It exhibits a potent cherry fragrance and yields low use concentrations. Effectively masks odors even at a dilution of 1:1000. Packaging: 55GL, 30GL, 5GL, 12X1QT ODOR RX

ODOR CONTROL PRODUCTS

LEMON SCENTED ABSORBENT POWDER

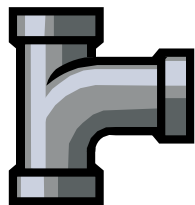

Part Number	Description
817082	Instantly absorbs any liquid mess and transforms it into a manageable gel. Economically absorbs 60 times its own weight so a little goes a long way. SUPER-SORB is effective on urine, blood, vomit and oil. Packaging: 12X1QT, 6X1QT SUPER-SORB

GRANULAR ODOR ABSORBENT

Part Number	Description
817076	A dry, chemically-treated granular product for destroying both inorganic and organic malodors. It works scientifically by absorption, chemical reactivity and oxidation. This formula effectively counteracts bad odors caused by putrefaction, decay, decomposition or odorous gases. Recommended highly for hotels, restaurants, breweries, canneries, packing plants, slaughterhouses, dog kennels, sewage plants, composts, garbage trucks, rendering plants, garbage cans, processing plants, and any place where undesirable odors occur. Packaging: 325LB, 100LB, 50LB, 12XQT RX GRANULES

SUPER PARA BLOCKS

Part Number	Description
832063	Made from pure, long lasting paradichlorobenzene that has been saturated with the finest liquid deodorants available. The perfect powerhouse for sewers, elevator shafts, dumpster areas, garbage collection areas, water treatment facilities, etc. Unique mesh hanger, safe for easy hanging. Fights odors up to 14 weeks. Packaging: 2 x 20LB per case SUPER PARA BLOCKS

DRAIN MAINTENANCE PRODUCTS

LIVE BACTERIAL ENZYMES

Part Number	Description
817071	Contains a balance blend of nonpathogenic aerobic and acultative Anaerobic, high-enzyme producing bacteria, plus stabilizing and suspending agents. OZYME 2 breaks down and liquifies suspended solids such as fats, proteins, carbohydrates, cellulose and greases that comprise the organic waste accumulations found in drains and sewer lines. Packaging: 55GL,30GL, 5GL, 4x1GL,12 QT OZYME 2

GRANULATED BACTERIAL ENZYMES

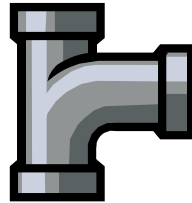

Part Number	Description
81607	Contains aerobic and anaerobic enzyme-producing bacteria to liquefy and digest sewage wastes and solids. Reduces offensive odor and will restore and revitalize septic tanks, cesspools, drain pipes, sewage systems and waste lagoons. USDA L-2. Packaging: 100LB, 50LB OZYME 3

LIFT STATION CLEANER

Part Number	Description
814030	Formulated to be a fast breaking emulsification system possessing degreasing and detergent properties that eliminate grease balls and cleans the vertical surfaces of lift stations, wet wells, and similar treatment facilities. Packaging: 55GL, 30GL, 5GL POWER ORANGE

ALL NATURAL GREASE TRAP SOLVENT

Part Number	Description
817088	Works in 1 to 50 dilution to dissolve grease and slime. Lifts up grease and floats it away keeping grease traps maintenance free. 100% active, no chlorinates or petroleum distillates. Packaging: 55GL,30GL, 5GL, 12PT CITRI SOLV

DRAIN MAINTENANCE PRODUCTS

NON-ACID DRAIN OPENER

Part Number	Description
838039	Our new extra-strength drain opener blasts away the toughest clogs. Quickly dissolves grease, paper, rags, hair, soap, etc. Uniquely powerful 40% active formula works where others fail. Fresh lemon scent helps to cover up any odors that may result from product dissolving clogging matter. Harmless to plumbing and septic systems. RAM EXTRA

DISOLV-KTSK

Part Number	Description
8140184	Alkaline mix that is safe for all types of lines, fittings, septic tanks and sewers. It is designed for drains 4 inches and larger for drain clearing and maintenance. Dissolv-Kstk dissolves food particles, cloth, foliage, grease, oils, paper, roots and other organic obstructions. Nonflammable, Non-Explosive. Controlled Heat and Tracer Dye. Packaging: 125LB, 50LB DISOLV-KTSK

DISOLV-L

Part Number	Description
8140177	Works immediately to safely dissolve common organic stoppages such as grease, sanitary napkins, coffee grounds, soap, paper, cloths, lint, cigarette butts and petroleum greases. Dissolv-L will not harm pipes. It does not deteriorate copper, steel or PVC pipes and fittings or rubber hardware within the system. Packaging: 12xQT DISOLV-L

UNCLOG

Part Number	Description
817013	A unique acid drain opener with a solvent odor blanket. The sulfuric acid in the product exothermically dissolves food residue, cloth, soap, paper, sanitary napkins, hair, tea bags, coffee grounds and other organic obstructions. The solvents in the Odor Blanket act as a "catalyst chaser" to clear away substances such as Styrofoam and similar polymeric material that sulfuric acid alone will not dissolve. Packaging: 12xQT UNCLOG

BATHROOM MAINTENANCE PRODUCTS

GEL TYPE BOWL CLEANER-ACID

Part Number	Description
832011	Removes organic encrustation, stubborn stains, lime, scale and corrosion films. Thickened acid cleaner designed to 'cling' to the surfaces makes this formula far superior to the watery types which run off and are wasted before stains are removed. Packaging: 5GL, 4x1GL, 12x1QT NOCK OUT

GEL TYPE BOWL CLEANER-NONACID

Part Number	Description
832020	A blend of high-performance alkaline detergents and penetrants designed to remove tough stains from grout, porcelain, stainless steel, ceramics, and other hard nonporous surfaces. Ideal for removing soap scum and light scale. Safe on marble. Packaging: 5GL, 4x1GL, 12x1QT NOCK OUT-NA

TILE AND GROUT CLEANER

Part Number	Description
817008	A unique blend of safe acids and cleaners restores luster and brightness to shower stalls, bathroom tile, grout, drinking fountains, glass, bathtubs, sinks, toilet bowls, urinals, quarry tile, chrome, brass, stainless steel, etc. Removes hard water stains, lime deposits, soap film, body oils, rust stains, Mildew, oxidation corrosion, etc. CHEM-QUICK is the total bathroom renovator and maintainer. USDA A-3. Dilute with up to 5 parts of water for regular use. Packaging: 55GL, 30GL, 5GL, 12X1QT CHEM-QUICK

CONCENTRATED DEODORANT CLEANER

Part Number	Description
817075	Cleans and deodorizes in one step, leaving a pleasant mint fragrance in treated areas. CHEM-MINT is ideal for use in schools, hotels, restaurants, offices, industrial buildings, nursing homes and public rest rooms. Dilute with up to 15 parts water. Packaging: 55GL, 30GL, 5GL, 4X1GL CHEM-MINT

NON-ACID TUB & TILE CLEANER

Part Number	Description
832019	Alkaline detergents cling to vertical surfaces for more effective cleaning. Removes soap scum, body oils and hard water mineral buildups. Safe for all porcelain, fiberglass and bright work. Packaging: 5GL, 4X1GL, 12xQT TNT

BATHROOM MAINTENANCE PRODUCTS

URINAL SCREENS WITH JUMBO BLUE ENZYME DEODORANT BLOCK

Part Number	Description
832066	Safe, non-para soap based block cleans and deodorizes around the clock with natural enzyme action. Screens are made from high quality flexible virgin plastic, holds block out of water for extended block life. Enzymes digest organic odor sources and help keep pipes free of organic debris. Costs far less than two 30 day blocks. Longer lasting means reduced labor cost. Lasts up to 75 days. Packaging: 6 X 8 oz blocks

TOILET BOWL RIM CAGE

Part Number	Description
8320086	Fits over the rim of most toilets. Built in foaming action. Each flush leaves a blue color. Lasts up to 30 days. Packaging: 12 cages FRESH TOILET

INDUSTRIAL ABSORBENTS

ABSORBENT PADS

Part Number	Description
817054	For maximum absorption at the fastest possible rate. Each pad absorbs up to 25 times its own weight. Meltblown weight. Meltblown 8 Polypropylene composition. Packaging: 1 BALE = 100 pads (17"x19"x3/8") ABSORBENT PADS

INDUSTRIAL ABSORBENT FOR LIQUIDS

Part Number	Description
817029	Contains, controls and picks up unwanted liquid spills, and removes sheen from floors, work surfaces, driveways, etc. It is made from 100% reclaimed cellulose fiber and absorbs liquids ranging from oil and solvents to water and non-aggressive chemicals on contact. Through capillary action, the absorbed liquid is locked into the cellulose fiber, preventing leaching and handling problems common with clay and diatomaceous earth (DE). Our cellulose fibers contain no respirable crystalline silica dust (a known cause of silicosis and a probably carcinogen) which is common with most mineral sorbents. Ideal for consumer, commercial and industrial users. SPILL-SORB is the preferred alternative to clay and diatomaceous earth! Packaging: 25 x 20LB SPILL SORB

INDUSTRIAL ABSORBENT

Part Number	Description
8170284	A homogeneous material containing no sawdust to leave a dusty residue. It will soak up all kinds of liquids including oil, water, grease, coffee, paint.. . any spilled liquid that could cause dangerous slippery areas in plants, factories, warehouses, stores, schools.. . any area. Sponge-All absorbs 125% of its own weight of oil, grease, water, acid, etc. Recommended wherever greasy, oily floors are to be protected and cleaned. Packaging: 500LB, 100LB SPONGE ALL

MISCELLANEOUS

HEAVY DUTY TIRE SEALANT

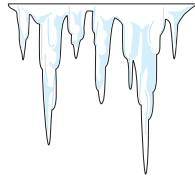

Part Number	Description	
817096	<p>Multi-Seal tire sealant is the premium tire sealant for use in heavy industrial tires. When properly installed into tires, Multi-Seal will seal punctures up to 1/2" in diameter, seal bead, rim, and other slow leaks, and reduce flats by 70-90%. Product is water soluble for quick/easy installation, clean up and removal. Tires treated with Multi-Seal remain completely repairable and retreadable. Applications: Backhoes, skid loaders, road graders, cranes, tractors, sanitation trucks, concrete trucks, heavy farm trucks and dump trucks. Packaging: 5GL</p> <p>MULTI-SEAL</p>	

GEAR OIL - EXTREME PRESSURE

Part Number	Weight	Description	
813001	SAE 80	<p>A versatile gear lubricant that lasts longer. Gears remain lubricated at all times to eliminate dry starts and marginal lubrications. Lubricates without high speed and heavy splashing. Anti-foaming properties. Does not mix with moisture coming into gear box. Rust and corrosion inhibitors. Maximum lubrication at high or low temperatures. Contains no lead or chlorine to damage rubber seals. Packaging: 55GL, 30GL, 5GL</p> <p>SUPER GYROL</p>	
813002	SAE 90		
813003	SAE 140		

BUG BAND INSECT REPELLENT

Part Number	Description	
816060	<p>Geraniol, a product that is patented by the University of Florida, has been proven to be the best flying insect repellent available. It is a natural, pesticide free product which requires no EPA registration and is environmentally safe. Geraniol has proven to be 100% more effective than products like Citronella and more effective than products containing 10% Deet. Geraniol has been proven effective in repelling mosquitoes, house flies, stable flies, horn flies, head lice, cockroaches, fire ants, gnats, dog ticks, star ticks and no-see-ums. Wrist bands are an ideal way to dispense the Geraniol insect repellent vapors for outdoor activities such as landscaping, lawn work, road work, or many other activities. Wristband has an active life of up to 120 hours which can be preserved if it is stored between uses. Won't rinse off with water or perspiration like other repellents. Vapors from the wristband form a protective shield around the immediate area, keeping blood sucking insects a safe distance away. Designed with a patented "break away" strap that snaps if the band is entangled and pulls on the persons arm. Packaged in an innovative reusable plastic "pot" which can be used to store the wristband between uses. Band can also be worn on belt loops, hatbands, or applied to other areas where insects could be a problem. Recyclable - simply dispose of the band and the pot with your plastic recyclable containers. Packaging: Bucket of 12 Bands, Box of 50 wipes.</p>	

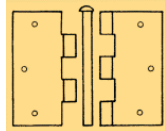

SNOW & ICE PRODUCTS

SNOW & ICE MELTER

Part Number	Description
817022	A naturally occurring material in pellet form that gives off heat as it dissolves. Penetrates snow and ice layers faster and at lower temperatures (-25° F) will not chemically attack concrete walkways. De-Ice does not leave a powdery white residue to track in on floors and Carpets. Packed in convenient 50 LB plastic lined fiber containers. DE-ICE PELLETS

LIQUID ICE MELT & ROCK SALT ENHANCER

Part Number	Description
816090	CHEM-THAW is a powerful deicer that will react immediately with rock salt to create a salt brine, which will enhance the entire process of deicing pavements and roadways. It significantly increases the effectiveness of rock salt to temperatures up to -40° F. CHEM-THAW will reduce waste due to "bounce and scatter" when untreated salt is spread and it will extend the melting time of rock salt and prevent refreezing for several hours resulting in a substantial savings in use of rock salt and reducing labor costs by achieving bare pavement conditions with less deicer per road mile and fewer repeat spreading runs. CHEM-THAW will not harm concrete, vegetation or Asphalt when added to aggregates. Packaging: 55GL, 30GL, 15GL, 5GL CHEM THAW

LUBRICANTS

NON-MELT GREASE

Part Number	Description
812020	<p>Lithium all-purpose, nonmelt grease specially formulated with extreme pressure and anti-wear additives to provide heavy duty service. This product has excellent adhesive and cohesive properties. It resists most acids, weather, dirt, salt spray, steam and oxidation. It is one of the very few greases that is able to withstand heavy shock load and impact pressures of 65 Timken load capabilities. USDA H-2. NLGI Grade 2. For use with mini lube dispenser 8150800. Packaging: 120LB, 45LB, 48TB, 12TB, 6X7# CAN</p> <p>CARDINAL RED</p>

MULTI PURPOSE BARIUM GREASE

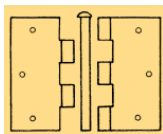

Part Number	Description
812007	<p>Possesses excellent water and heat resistance and is specially compounded to remain stable in severe working conditions. Its unusual tenacity makes it highly effective as a corrosion preventative, and tests indicate its superior quality as a bearing lubricant. Its multi-purpose feature makes it the most outstanding fibrous lubricant available. It “stays put”, cushions shock loads, and does not “thin” under tough operation conditions. It binds to metal surfaces to provide continuous lubrication and protection and through its cohesive action, strings out into long fibers of grease that pass from gear to gear, continuously renewing the lubrication action and resisting “squeeze out” or bleed on open gear drives. Packaging: 120LB, 50LB, 10LB.</p> <p>BARIUM HI-TEMP</p>

WHITE LITHIUM GREASE

Part Number	Description
812005	<p>A clean, pure, white grease for food equipment and machinery lubrication in meat and poultry processing plants, canneries, citrus houses, bakeries, dairies, bottling plants, kitchens . . .anywhere a clean and non-toxic grease is needed. In addition to its excellent lubricating properties, this food-grade grease contains an anti-wear agent to prevent friction destruction of metallic surfaces, as well as oxidation inhibitors to prevent the formation of corrosive or contaminating materials. Resists water, and will not run off under the wettest conditions. Packaging: 120LB, 45LB, 48 tubes, 12 tubes</p> <p>PREMIUM WHITE</p>

ALUMINUM COMPLEX GREASE

Part Number	Description
812006	<p>Developed to satisfy the most exacting industrial and automotive applications.. .particularly in the area of heat and extreme pressure requirements. Excellent for sleeve bearings, ball joints, and gear drives, and is an outstanding universal joint grease. As a fifth-wheel grease, it withstands high pressures and shock loads, and is resistant to water washout, and guarantees continuous protection against all weather conditions. For use in high-temperature industrial applications, such as chain drives, sleeve bearings, conveyor bearings, etc. Packaging: 120LB, 35LB, 10LB</p> <p>MULTI LUBE</p>

LUBRICANTS

MOLY-LITH MULTI PURPOSE GREASE

Part Number	Description
812004	P Moly Lubricant is formulated to replace almost all single-purpose greases. It contains molybdenum di-sulfide in a lithium base, and is effective in cold and heat conditions up to 250 F. It increases performance and extends equipment life under most conditions. Gives outstanding low-friction performance and exceptional chemical and mechanical stability under high loadings, shock and vibration. Withstands extreme pressures and temperatures. Clings to metal and does not run off. REGAL PLP is an outstanding all-weather lubricant for both indoor and outdoor use. Use in plain and anti-friction bearings, universal joints, sleeve bearings, slides, water pumps, drive shafts, splines, grease cups, chains, conveyors, chassis, etc. Packaging: 120LB, 35LB, 48 tubes, 12 tubes REGAL PLP

SILICONE LUBRICANT

Part Number	Description
817001	Stops sticking of drawers, windows, doors and locks. Eliminates annoying squeaks in hinges, latches, springs, etc. Stops car doors, locks and trunk moldings from sticking. Retards corrosion—protects battery terminals, tools, guns and doors, etc. Waterproofs ignition systems and spark plugs. Helps prevent grass, dirt and mud from sticking to lawn mowers. Use on any surface—metal, glass, rubber plastic, painted finishes and fabrics. Packaging: 55GL, 30GL, 15GL, 5GL SLIKIT

DRILL AND TAPPING FLUID - WATER SOLUABLE

Part Number	Description
811016	Excellent lubricity provides smooth finishes and good tool life. Excellent non-ferrous corrosion control. Rust inhibitors prevent in-process rust on machines and parts. Excellent rancidity control ensures long fluid life and minimizes the use of additives. Nitrate and silicone free. Packaging: 55GL, 30GL, 15GL, 5GL METAL MASTER KOOL KUT

DRILL AND TAPPING FLUID - HEAVY DUTY

Part Number	Description
811020	Metal Master Drilling and Tapping Fluid is a new heavy-duty metal coolant and lubricant for drilling, tapping and threading operations, ideal for tough alloys. Can be used safely on all metals. Contains a combination of special heat absorbers that prevent friction and the consequent build-up of temperatures at the tool-metal interface. Tools last longer and precision cutting is made easier. Packaging: 55GL, 30GL, 15GL, 5GL METAL MASTER DRILLING & TAPPING FLUID

PENETRATING OIL & RUST RELEASE AGENT

Part Number	Description
813013	A unique formulation that substantially reduces surface tension, permitting rapid, deep penetration of rusted or corroded parts. Penetrates, frees and cleans rusted parts. Loosens rusted nuts, bolts and studs commonly found on mufflers, tailpipe fittings, brake cables, lock mechanisms, speedometers, conveyors and wheels. Provides a residual oil film for lubrication and protection against corrosion. Also used as a cutting oil for pipe threading, etc. Packaging: 55GL, 30GL, 15GL, 5GL, 4X1GL UN-LOX

HERBICIDES

HERBICIDE CONCENTRATE

Part Number	Description
816583	<p>A non-selective concentrated herbicide that can be applied for post-emergent or pre-emergent weed control. This product is dilutable at the rate of one part product to 10 parts oil or water and is water emulsifiable and non-corrosive to equipment. When diluted with oil, this product functions as a desiccant when applied to live vegetation. This ability to dehydrate the plant causes a quick top kill within 24 hours. In addition to an effective top kill, the treatment will be absorbed through the roots to give complete root kill. The effect will last up to a full season. This allows for the product to be used for spot treatment as well as for large area coverage. As a soil sterilant herbicide, the active ingredients will remain in the soil up to a full growing season, thereby prohibiting the growth or re-growth of weeds and other undesirable foliage. Coverage is 650 to 1000 square feet per gallon of product. It is recommended that this product be used in areas such as industrial sites, around buildings, roadways, rights-of-way, lumber yards, tank farms, cemeteries, driveways, parking lots, fence areas, recreational areas and airports. Packaging: 55GL, 35GL, 20GL, 4X1GL</p> <p>WEED-A-CIDE</p>

HERBICIDE

Part Number	Description
816579	<p>Repco Kill III is designed for use in areas where all vegetation is to be killed. By using this herbicide, all the vegetation will be killed (non-selective), and control will last for one growing season (residual), avoiding costly hand weed cuttings and/or several weed killing applications. This high performance herbicide is a triple kill formula - contact kill, top kill, and root kill. The phytotoxic oil carrier combines the properties of low volatility with rapid penetration, absorption, and translocation of the active ingredients to produce rapid browning and contact kill. The insolubility of Bromacil in water maximizes effect regardless of rainfall after application or stage of growth at time of application. This product may be applied at any time of the year when weeds are growing. Plant growth will be controlled for up to one growing season, depending upon application volume and soil consistency.</p> <p>Packaging: 55GL, 35GL, 20GL, 4X1GL</p> <p>REPCO-KILL III</p>

WEED KILLER

Part Number	Description
816586	<p>Unique and versatile, Weed-trol can be used as a general contact weed killer as well as for control of aquatic vegetation. The active ingredient, diquat dibromide, is absorbed through the leaves and therefore does not reach the root system. This product is ideal for areas where water run off may pose leaching concerns, because the product becomes inactivated in soil. As an aquatic weed killer, the product may be used to control floating weeds such as Pennywort, Salvina, Waterhyacinth, Waterlettuce, Duckweed, and Cattails. Packaging: 35GL, 20GL, 4X1GL</p> <p>WEED-TROL</p>

HERBICIDES

BROAD LEAF WEED CONTROL

Part Number	Description
816587	Designed for control of broad leaf weeds on turf, golf courses, park grounds and other similar non-crop turf areas. In addition to the thorough root kill this selective weed killer also gives a thorough top kill. This product is effective all year in cool or warm weather, but for optimum results, use should be in early spring while desirable grass is dormant and weeds are hardy. This selective weed killer is very economical because of its high dilution rate and the reduction of reseeding costs. It is best to use a separate sprayer for application of insecticides and fungicides. Packaging: 55GL, 35GL, 20GL, 4X1GL C-LEX

LIQUID WEED KILLER

Part Number	Description
816584	This liquid weed killer is composed of bromacil in a phytotoxic oil. The oil carrier combines the properties of low volatility with rapid penetration and translocation in the plant. The insolubility of the herbicide in water assures full effect regardless of rainfall after application or stage of growth at the time of application. It produces rapid top kill of all succulent vegetation. Translocation and root absorption of component herbicides produce extensive root kill of weeds and provide long term residual control. As a soil sterilant type herbicide, the active ingredients will remain in the soil up to a full growing season, thereby prohibiting the growth or re-growth of weeds and other undesirable foliage. Packaging: 55GL, 35GL, 20GL, 4X1GL EX-IT

HAND CLEANERS

HEAVY DUTY MECHANICS HAND CLEANER

Part Number	Size	Description
8140147	12 x 16 oz. Tubes	Gritty heavy duty formula contains pumice to help quickly clean grease, oil, paint, tar and more. Enhanced with moisturizing Aloe and nourishing Vitamin E to condition skin. Has a clean, fresh fragrance. For use with or without water. Use with dispenser #8150777 GRITTY
8320615	4 x 2000ml	

NATURAL CITRUS HAND CLEANER

Part Number	Size	Description
8140427	12 x 16 oz. Tubes	Gritty Orange is our natural citrus hand cleaner with pumice to help quickly clean and safely remove grease, oil, paint, ink, carbon. This product is formulated with a natural citrus-based solvent and is petroleum free. Gritty Orange has a refreshing orange scent and may be used without water. Use with dispenser #8150777 GRITTY ORANGE
8320625	4 x 2000ml	

ORANGE TOUCH

Part Number	Size	Description
8320425	4 x 1GL	Orange Touch offers gentle yet effective cleaning in a lotionized waterless cleanser without scrubbers. The formula is d-Limonene based with a natural citrus-based solvent. This cleanser contains skin conditioners to keep your skin from getting dry. Use with or without water. Wall Bracket #8150977 Plunge Pump #8150966

POWDERED HAND CLEANER

Part Number	Description
814034	Recommended for municipal garages, factories, appliance repair shops, printers, auto repair shops, sewage plants, painters, transmission shops and more. Packaging: 325LB, 125LB PALMS UP

HAND CLEANERS

INDUSTRIAL HEAVY DUTY HAND SOAP

Part Number	Description
832001	Made exclusively of cosmetic grade synthetic detergents with glycerin retained and lanolin added so that it will be non-irritating to delicate skin. Produces a high level, long lasting foam even in hardest water. Penetrates and solubilizes toughest soil without hard scrubbing or presence of abrasives. WOXON is better than powders or liquids in removing grease, oil, printing ink, typewriter ribbon carbon, carbon paper smudges, mimeograph and duplicator machine inks, lipstick, shoe polishes, dyes, etc. Leaves skin soft and smooth as it cleans. Rich Sudsing. Free rinsing. Hands, body, face and hair shampoo. Biodegradable. Packaging: 55GL, 30GL, 15GL, 5GL, 4x1GL WOXON

LOTION SKIN CLEANER

Part Number	Size	Description
8320498	12 x 800ml	A blend of natural soaps and synthetic cleaning agents to maximize cleaning with luxurious suds. Contains emollients to leave skin soft and smooth. Formulated for medium to heavy soil removal to be used in a wide range of applications. Pleasant scent encourages frequent use. Pearlized appearance is aesthetically pleasing. Packaging: 55GL, 30GL, 5GL, 4x1GL CREEMEE PINK

INSTANT HAND SANITIZER

Part Number	Size	Description
8320508	12 x 800ml	Crystal-clear, ethyl alcohol-based gel that kills 99.9% of eight important organisms in less than 15 seconds! May be used when water is unavailable. Nondrying to the skin; odorless. Helps employers comply with OSHA's Bloodborne Pathogens Standard. USDA E4-listed. SANTI-GEL

ANTIBACTERIAL HAND SOAP

Part Number	Size	Description
8320488	12 x 800ml	Gold-colored soap featuring the superior germ-fighting power of TRICLOSAN (.3%) proven to kill a wide variety of disease-causing bacteria, viruses and fungi on contact, including MRSA and VRE. Lathers up quickly. Includes moisturizers and conditioners to soften hands and deodorizers to eliminate even the most offensive odors. USDA E-4 listed.
